For bathrooms glorious in color

America demands the bathroom—and glassed in! And now comes Kohler Colorware, bringing upon this room an added charm and dignity. Some bathrooms may be glorious in color. With fixtures in beautiful shades of lavender, blue, ivory, green, grey—delicate yet amazingly permanent...

Different bathrooms, you will perceive, may be done in different color schemes, each with its individual charm and character. Yes,

lavatory, toilet—all contribute to the harmonious ensemble, for Kohler fixtures in both enamel and vitreous ware are now made in color. Kohler fittings in softly hued chrome-plated glass add the final touch of perfection.

Color means Kohler. To appreciate this new beauty you must see Kohler fixtures. Visit a Kohler showroom if you care—for a true perspective thereof. And consult your plumber. He will tell you that a bathroom

in Kohler Colorware costs little more than one in white. Meet the owners for glimpses of bathrooms in all the Kohler Colors.

THE BOLD LOOK
 OF
KOHLER.

What John Michael Kohler saw in 1883 when he looked at a cast-iron horse trough was the bathtub that launched a global plumbing company. That pioneering spirit of ingenuity – the kind that sees a bathing revolution in a horse trough – has defined Kohler Co. from its earliest days. A visionary, John Michael Kohler understood the importance of innovative design and an uncompromising commitment to craft and quality. After four generations, we remain a family-owned company, with over 26,000 products and 13,000 patents to our name. Still leading the industry in innovation and design. Bolder than ever.

Designing a bathroom space that fits you – your habits, your style, your home – can be challenging. The KOHLER® bathroom sink and storage selection gives you all the tools you need to create an ideal grooming environment where everything has a place and you can feel and look your best. Made with premium materials that stand up to daily life in the bathroom, our sinks, vanities and medicine cabinets provide smart storage and functionality to help organize and streamline your routines so you're ready to take on each day.

Why KOHLER®?

People have been turning to Kohler for bathroom design for nearly 140 years. We've earned a reputation for innovative design and uncompromising quality. Our commitment to providing thoughtful solutions for the entire bathroom has established Kohler as a leader in bathroom grooming space design. With a broad offering of bathroom sinks and storage options, we help you combine products that work beautifully together in your home and make the best sense for you.

Smart & Stylish Grooming Spaces

We offer an extensive range of grooming space components – sinks, storage, and mirrors – for every configuration. Simple to sophisticated. Traditional to contemporary. And, because all the variations can be a bit overwhelming, we walk you through what's what, so you can move quickly from understanding the basics to imagining new possibilities.

Considered Collections

Designing a grooming space becomes a one-step process with KOHLER collections. Our coordinating fixtures and faucets allow you to simply choose a style that complements your home. All the components are there for you to mix and match to meet your functionality needs and design preferences, not only for your grooming space, but for the entire bath or powder room.

Bold. Artistic. Design.

If you're drawn to living spaces that are a little more unique, a little more daring, our Artist Editions and Nature's Chemistry™ collections feature handcrafted, functional works of art. In addition, the KOHLER color palette invites you to make vibrant, beautiful color the central focus of your bathroom design.

Smart & Stylish Grooming Spaces

A thoughtfully considered sink and storage area can make a bathroom incredibly functional and easy to use. As you design your space, you'll want to think about each component, how you use it and what options make the most sense for you and your home. For example, are you simply replacing a drop-in sink or are you starting from scratch? How much storage do you need? What about counter space? Whatever your needs and preferences, we can help you create an inviting space that offers great functionality.

Before You Choose a Bathroom Sink

As you design your bathroom and choose the style of your sink, there are several installation options you'll want to consider. We've outlined the differences here. Visit [KOHLE.com/BathroomSinks](https://www.kohler.com/BathroomSinks) for additional information.

Pedestal

A stand-alone fixture, the pedestal sink features a generous basin available in multiple sizes and styles to complement other fixtures. These sinks offer a clean, distinctive look that works well in small bathrooms, making a small space feel more open.

Wall-Mount

These sinks attach to the wall and often include a shroud to cover piping. Convenient for small bathrooms, wall-mount sinks can make a small space appear larger.

Vessels and Wading Pool®

Vessels sinks are freestanding basins that rest on the counter and create a dramatic centerpiece for any bathroom. Wading Pool® above-counter sinks, unique to Kohler, accentuate the movement of water.

Under-Mount

These sinks mount beneath the counter to create a smooth counter-to-basin transition. Sleek style and ease of cleaning give this installation type its appeal.

Drop-In

Drop-in sinks have a rim or lip that sits on the counter while the basin rests below. Ideal for remodeling, drop-in sinks can be easily retrofitted to an existing counter.

Vanity-Top

Designed to coordinate with KOHLER® vanities and console tables as well as industry-standard bathroom furniture, vanity-top sinks provide a one-piece counter and basin solution.

Before You Choose a Vanity

We offer a wide range of furniture solutions to fit the configuration of your bathroom, as well as your storage needs and design preferences. To help you get a sense of the available choices, we've listed the main features and options of each.

Vanities

Our vanities are available in multiple sizes. You may choose from petite vanities ideal for small spaces to full 48-inch vanities, with a range of sizes in between. In addition, modular collections can be configured into combinations from 24 to 84 inches. Several of our vanities feature the Express™ assembly system. Packed flat for easy transport, these vanities are affordable and quick to assemble and install.

Vanity-Top Sinks

We offer vanity-top sinks in your choice of KOHLER® Enameled Cast Iron, glass, vitreous china or fireclay. These one-piece counter and basin solutions are designed to coordinate seamlessly with KOHLER vanity and console table styles and sizes.

Console Tables

Console tables work well in bathrooms where extra storage isn't essential but sophisticated style is. Consider pairing a medicine cabinet with a console table for the best of both worlds. Designs range from clean and crisp to intricate and ornate.

Before You Choose a Medicine Cabinet or Mirror

KOHLER® mirrors and medicine cabinets are equally stylish, sophisticated and well-crafted. We've designed our medicine cabinets to help you reduce clutter in the grooming space and organize all of your essentials within easy reach. To help you decide on a mirror or medicine cabinet, we've listed several things you may want to consider as you make your decision.

Medicine Cabinets

Bringing organized storage solutions to the bathroom, our medicine cabinets are roomy, available in multiple sizes and styles, and constructed of quality materials that last. Our medicine cabinets are ideal if it's important to have quick, easy access to your toiletries.

Range of Sizes

We offer a wide range of medicine cabinet sizes to meet your storage needs. In addition, select cabinets may be ganged together for installation in large bathrooms. Our offering includes double-door models as well.

Hinges

Durable and rust-resistant, our medicine cabinets are manufactured either with an adjustable self-closing 107°- or 170°-hinge option or an adjustable 110° hinge. All three allow the door to swing clear for ready accessibility.

Recessed or Surface-Mounted Framed or Frameless

Most of our medicine cabinets have two installation options. They can be recessed, with all but the door set into the wall, or mounted on the surface of the wall with a kit. You can choose the style of installation based on your needs and preferences.

KOHLER® medicine cabinets come in a variety of styles to match your personal design preference. You can choose from suite-coordinated framed cabinets to complement your fixtures, wood-framed cabinets or frameless cabinets.

Mirrors

Several of our vanities have coordinating mirrors with matching wood frames. In addition, select accessory collections feature line-matched mirrors. If you're set for storage and prefer a traditional look, a mirror may be the perfect choice.

Contemporary Purist vanities and cabinets give bathrooms a wide-open, fresh appearance. Natural lavastone countertops – precut for single- or dual-sink options – let you customize your bathroom as a place of your own or a shared space for busy mornings. The vanity's extra-deep drawers provide plenty of space while the Purist mirrored cabinet with side pullout shelves lets you plug in your razor or MP3 player and keep smaller essentials perfectly organized. To view additional Purist medicine cabinet options, see page 119.

Glossary of Terms

Barrier-Free

Barrier-free bathroom sinks are designed to provide closer, easier access.

Console Table

A beautiful accompaniment to KOHLER® vanity-top sinks, console tables work well in bathrooms where extra storage isn't essential. Designs range from clean and crisp to intricate and ornate.

Drop-In

Drop-in sinks have a rim or lip that rests on the counter while the basin rests below. Ideal for remodeling, drop-in sinks can be easily retrofitted to an existing counter.

Enamel

A powder coating applied to an iron casting. When exposed to high temperatures, the coating melts and bonds to the casting, creating a glass-like surface. The thickness of KOHLER enamel provides outstanding protection against chipping and scratching while offering deep color integrity.

Express™ Assembly System

The Express assembly system is featured on select vanities. Packed flat for easy transport, these vanities are affordable and quick to assemble and install.

Glaze

A glossy, water-resistant, colored-finish surface that protects all nonporous vitreous china plumbing fixtures.

Medicine Cabinets

Bringing organized storage solutions to the bathroom, our medicine cabinets are roomy, available in multiple sizes and styles, and constructed of quality materials that last.

Metal-Frame Installation

A metal frame is mounted around the bathroom sink.

Pedestal Sink

A stand-alone fixture, the pedestal sink features a generous basin available in multiple sizes and styles to complement other fixtures.

Recessed

Our medicine cabinets have two installation options: recessed or surface-mounted. When recessed, all but the door is set into the wall.

Shroud

Material that conceals the piping beneath a bathroom sink. Shrouds are included with many of our wall-mount sinks.

Single-Hole

One hole drilled in the center of a sink faucet ledge that provides for installation of a single-handle faucet.

Surface-Mounted

Our medicine cabinets have two installation options: recessed or surface-mounted. When surface-mounted, the medicine cabinet rests on the surface of the wall and includes an installation kit.

Under-Mount

These sinks mount beneath the counter to create a seamless counter-to-basin transition. Sleek style and ease of cleaning give this installation type its appeal.

Vanity-Top

Designed to coordinate with KOHLER® vanity and console table styles and sizes, vanity-top sinks fit snugly over the entire cabinet or console table and act as both counter and basin.

Vessels Sink

Vessels are freestanding basins that rest on the counter – a dramatic centerpiece for any bathroom.

Vitreous China

A term applied to plumbing fixtures that are comprised of ceramic materials, fired at a high temperature to form a nonporous body with exposed surfaces and coated with ceramic glaze.

Wading Pool® Sink

Wading Pool above-counter sinks, unique to Kohler, accentuate the movement of water. Featuring reduced basin depths, some offer an optional, detachable water-catching bowl or surface panel.

Wall-Mount

These sinks attach to the wall and often include a shroud to cover any piping. Convenient for small bathrooms where additional floor space is useful.

Wet Surface Sink

A sink housing a surface panel within its basin that creates a signature flat surface, allowing water to flow outward into the surrounding channel.
