Bathing

THE BOLD LOOK
OF **KOHLER**®

Life without labor is guilt. Labor without art is brutality.

- John Ruskin

and fixtures that carry the Kohler mark are well designed and well made, in the true sense of the word. They are enduring fixtures. Kohler colors are pure, undiluted, harmonious. If you prefer white, Kohler white is as incomparable as fine hand-painted linen. Kohler fixtures and handles and

Kohler fixtures are always well designed—indeed, all the mechanical parts are new, tested and tested. Those who work on Kohler products have the true tradition of craftsmanship. The beautiful village of Kohler is in Wisconsin, where the men who do such intricate detail of manufacture work on rigid engineering requirements—and with the earnestness of high art.

An all-Kohler bathroom—at the same cost!

Quality is not a matter of money—but of knowledge and wisdom. From the small home meet have the finest fixtures

plumbing contractor. Actual estimates will show you that an all-Kohler installation costs surprisingly little. And it is built to last. Look at Art, which has color schemes, floor plans and various vital facts and good planning. — Kohler Co. Fostoria, Ohio. Kohler Works, Kohler, Wisconsin. Principals: Charles Koch, the Kohler mark on every fixture and fitting.

ELEVEN IMPORTANT POINTS

1. Kohler designs are decorative, purposeful, unique.
2. Made with an everlasting lead . . . smooth, polished surfaces.
3. Smooth, polished surfaces . . . smooth, lasting glass.
4. Kohler fixtures are soft, flexible points. The Kohler mark is a registered trademark.
5. Metal fittings match the fixtures in style.
6. Plans of basic materials . . . clear, concise, complete, up-to-date.
7. This catalog of Kohler products are just your own ideas in plumbing.
8. Kohler fixtures are made to fit into and beautify.
9. Kohler quality costs no more . . . and saves money later.
10. Kohler fixtures are installed by qualified plumbers.
11. Backed by an entire community . . . beautiful Kohler Village.

KOHLER OF KOHLER

Historical Highlights

Form and function. We've been combining the two, never sacrificing one for the other, since 1873.

1883

The first KOHLER® bath is made from a cast-iron horse trough and, as the story goes, sells for 1 cow and 14 chickens.

1927

Using new technology, Kohler is the only company to offer cast-iron and vitreous plumbing products in matching pastel colors.

1965

Bright, lively accent colors are added to the KOHLER color palette, another industry first.

1911

We design the first bath in the industry that features an apron, establishing Kohler as a leader in design and innovation.

1929

A design exhibit at the Metropolitan Museum of Modern Art features KOHLER fixtures in Black.

1977

Kohler presents Environment, the world's first environmental enclosure able to simulate sun, gentle rain and warm breezes.

1987

The Tea-for-Two® bath and complementary Souris® sheetflow bath spout receive the Governor's New Product Award.

**2001**

Kohler launches the iconic sôk® overflowing bath, garnering a significant number of design awards.

**2010**

The Elevance™ Rising Wall bath, part of the Bold Independence line of products, offers bathers greater accessibility.

**2000**

The flagship Kohler Waters Spa opens its doors for business in the Village of Kohler.

**2008**

VibrAcoustic™ sound vibration technology revolutionizes the way people think about bathing.

**2010**

The first KOHLER Enamelled Cast Iron BubbleMassage™ baths combine durable beauty with massaging bubbles.

Explore the latest in home spa bathing with Kohler, the only bathing manufacturer in the world to own and operate an award-winning water spa. Our expertise in hydrotherapy allows us to create truly unique experiences that help stimulate the senses and bring the mind and body into balance. Whether you love a deep soak, the feel of water rushing over your body, or the sensation of being immersed in color and sound, you'll find your experience of choice here. We invite you to take a look and discover your bathing style with Kohler.

Also, you'll find great design ideas for the bathroom at KOHLER.com/BathroomGallery.

Why KOHLER®?

Since 1883, people have been choosing KOHLER bathing products for their homes. After so many years, we're pretty sure we know why. It comes down to how we approach each product. For us, every bath we design is a measure of the standards we set, in innovation, performance and quality. Every bath we manufacture is evidence of our commitment to you. So year after year, we deliver incredible new designs and hydrotherapies.

Experts in Spa Wellness

While John Michael Kohler could not have known all the benefits of hydrotherapy when he introduced his first bath, he did recognize water's ability to refresh the body and spirit. We've taken this basic idea and applied the expertise of our human-factors specialists and hydro-massage therapists at Kohler Waters Spas in Kohler, Wisconsin, and St Andrews, Scotland, to create holistic, spa-based bathing experiences that soothe and stimulate, calm and energize your entire being.

Award-Winning Design from Concept to Product

We've been perfecting bath design inside and out for over 135 years. In order to bring you baths that look beautiful in your bathroom and, more important, feel wonderful to sink into, our designers, engineers and ergonomics specialists work together to get every angle just right. Our baths have to deliver timeless style, amazing comfort and lasting value to be inscribed with the name KOHLER.

KOHLER Enameled Cast Iron

Nothing makes an enduring statement to innovative design, lasting beauty and timeless craftsmanship in your home like KOHLER Enameled Cast Iron. A thoroughly modern choice, it is made in part with recycled material. And while other trends come and go, few materials can match cast iron's strength, style and soul.

A Leading Innovator in Hydrotherapy

Every day, we study the movement of water, tailoring its effects on the body to bring you the most pleasurable and beneficial water treatments we can. Based on our research, we've created five distinct hydrotherapies that shape and move water and air, even sound, over and around your body. Customizable and truly unique, our hydrotherapies help you create your own personal home spa and enhance your sense of well-being.

KohlerWatersSpa.com

Kohler Waters Spa

Every day at Kohler, we have the luxury of seeing firsthand the healthful effects of water treatments. A top-ranked spa, Kohler Waters Spa is our own unique resource for exploring the latest discoveries and trends in wellness and hydrotherapy. Our designers and engineers collaborate with Kohler Waters Spa experts in designing our bathing products so you can bring the benefits of hydrotherapy home.

“Focusing on one’s own wellness is the best gift you can give yourself and those around you. It is critical to a balanced and happy life.”

Director – Kohler Waters Spa

Hydrotherapy at Home

The collective knowledge and collaboration between our Kohler Waters Spa wellness specialists and our product designers allow us to pioneer unique water treatments for our spa guests and for you at home. We've been able to push the envelope on custom Vichy shower and soaking experiences in the spa because we design and build the products right here. Our designers then use those very innovations to bring you the best in home spa hydrotherapy.

Enhanced Well-Being

Purist® whirlpool with spa/massage package (K-1110-V-0) Page 70

Floor-mount bath filler (K-8359-CP)

Our five hydrotherapies harness water's natural ability to carry heat and sound vibration to the body for enhanced well-being. Depending on your choice of hydrotherapy, you may enjoy some of the following spa treatment benefits in the comfort of your home, so you feel centered and energized – your best self.

- Renewed focus
- Re-energized senses
- Reduced muscle tension
- Deep, meditative relaxation
- Enhanced overall sense of well-being

Award-Winning Design

from Concept to Product

Research & Development

Research and development is where it all begins for us – understanding our customers' needs, studying wellness and design trends, drawing on technological advances in science and industry, and exploring new materials and technologies.

Concepts & Sketches

Armed with the latest research, our teams of international designers at design studios in Kohler, Paris and Shanghai begin sketching concepts for baths that deliver new levels of comfort and convenience and push the envelope on design.

3-D Modeling & Prototyping

Here's where our ergonomics engineers get involved. Having worked with NASA to understand the natural position of the body in its most relaxed state, Kohler engineers use computer models and mockups to help shape each bath to fit the 5'4" as well as the 6'2" bather.

We believe your bath should truly delight you at every turn, inside and out. To create baths that do just that, we take a holistic approach to bath design at Kohler, bringing together a team of our best industrial designers, engineers and human-factors experts. Together, they ensure that our baths deliver beautiful style, an incredibly comfortable fit and a water experience to suit your individual preference.

Performance Testing

Our test labs, located throughout the world, perform hundreds of tests and measurements from cycle testing to stain-resistance testing. Third-party evaluations by the IAPMO* help ensure that our labs are compliant with the ISO** Guide 17025.

*International Association of Plumbing and Mechanical Officials
**International Organization for Standardization

Design Review

At various stages in the process, each design is reviewed by our executive team to ensure that each product represents the KOHLER brand and stays on the leading edge of design and innovation.

Manufacturing

We manufacture our fixtures and faucets in advanced facilities located in 16 countries. Kohler manages every step from concept to end product with the goal of creating award-winning products that bring beauty and comfort to life.

Innovative Design

A stylish alternative to institutional-looking options, the Elevance™ Rising Wall bath lets you lounge comfortably and safely at a perfect soaking depth.

Elevance

KOHLER.com/Independence

Comfortable Fit

The Elevance™ Rising Wall bath's soaking depth, together with the footwell and comfortable contoured back, allows you to lounge in a relaxing, deep soak instead of sitting upright. The extra-wide door opening and chair-height seat let you enter and exit the bath safely and comfortably.

Smart Design

The rising wall lifts with just one hand – with less effort than lifting a half-gallon of milk. It locks into place easily, and two watertight seals inflate to prevent leaks. The bath drains in less than two minutes. Simply tap the drain with your toe and lightly touch a secondary drain on the rising wall.

Soothing Water

The unique waterfall fill eliminates the need for protruding spouts, while optional BubbleMassage™ creates a blissful experience with soft bubbles. Ensure your ideal temperature by testing the water in the footwell before you lift your legs into the bath.

Design Highlights and Awards

Recognized for innovation and design excellence, KOHLER® kitchen and bath products have received consumer choice awards as well as celebrated design awards. We've designed over 26,000 products, registering more than 13,000 patents, and we remain committed to bringing beautiful, purposeful design to life.

Strength. Style. Soul.

The perfect house is hard to come by. And when you find it, there are a thousand things you'll change to make it the home you've always imagined – a home that holds up for generations. But these days, that's no small challenge. It's tough to find things that are made to last and don't go out of style. Our options are too often designed to be temporary instead of timeless. With KOHLER® Enameled Cast Iron, there is no trendy disposability. It's made in part with recycled material and is guaranteed for life.* Just strength, style and soul.

Handcrafted for Life

KOHLER® Enameled Cast Iron offers a genuine, handcrafted fingerprint that will last for generations. It withstands whatever you and your family dish out, from kids' toys banging around in the bath to dropped shampoo bottles. And our lifetime limited warranty guarantees* it will not chip, crack or flex for life – yet it's soft and reassuring to the touch.

*KOHLER Enameled Cast Iron baths installed in North America carry a Lifetime Limited Warranty for as long as the original consumer purchaser owns his or her home.

KOHLER.com/CastIron

A Leading Innovator in Hydrotherapy

VibrAcoustic

Collaborating with a renowned sound therapist, we designed four distinct compositions, layering calming instrumental arrangements heard above the water with sweeping acoustic vibrations experienced within the water.

Solitude

Universal tones and rhythms evoke the constancy of tides and steady the breath.

Letting Go

Music rises and gently dissipates leading the body into a meditative repose.

Awakening

Upbeat soundscapes with an emphasis on melodic guitar stimulate the mind and body.

Transcendence

Cohesive yet deliberately random notes invite the mind to wander, to simply be.

VibrAcoustic™ hydrotherapy adapts the science of sound therapy, helps to ease stress and enhance well-being, and creates an environment of harmony both invigorating and restful. Music and sound vibration completely surround you, permeating the core of your body. Your breathing and heart rate actually begin to synchronize with slow yoga-inspired rhythms. The effect is truly irresistible relaxation.

KOHLER.com/VibrAcoustic

What will I experience?

Designed to relax both the mind and body, VibrAcoustic hydrotherapy balances sound vibration that soothes the body at its very core with preset, original compositions that engage the mind. Using steady beats, the sound vibration and music encourage the breath and heart rate to synchronize with a slower rhythm. The body and mind are led to an oasis of calm repose.

How does it work?

VibrAcoustic panels broadcast sound waves that travel through the water and gently resound in the body. Strategically positioned throughout the bath to provide the most beneficial effects to the entire body, these panels are concealed under the shell of the bath for a smooth, uninterrupted bathing surface. Music and chromatherapy are choreographed to work in unison with the VibrAcoustic panels for a holistic approach to profound relaxation.

What else should I know?

An easy-to-use, conveniently located user interface controls all VibrAcoustic features and affords bathers the option of listening to the four compositions or their own music. Visit us at KOHLER.com/VibrAcoustic to preview each of the four original compositions – Solitude, Letting Go, Awakening and Transcendence – created in collaboration with a renowned sound therapist.

Effervescence

Effervescence hydrotherapy caresses your body in a warm, slow-moving embrace. Water and air gently travel through unique ports designed to pamper your body with champagne-like bubbles that cling to your skin. Creating a serene and meditative environment, Effervescence envelops your body with sensory delight.

KOHLER.com/Effervescence

What will I experience?

Small, soothing bubbles travel slowly along the body, surrounding the bather in a warm embrace. A heightened awareness of the senses occurs. The skin feels replenished. The result is a sensory retreat.

How does it work?

Unlike a standard whirlpool, Effervescence features discreet ports that deliver gentle, caressing bubbles. These ports have been carefully positioned along the bath to achieve optimal coverage of the entire body.

What else should I know?

An in-line heater is included to help ensure a comfortable, consistent water temperature. Optional chromatherapy, a sequence of soothing colored lights, and a floating remote control allow bathers to easily and conveniently customize the experience.

BubbleMassage

BubbleMassage™ hydrotherapy is designed to deliver a holistic, full-body experience. Warm air is pushed through the 360-degree staggered airjet design, creating thousands of bubbles. Your entire body is thoroughly massaged, while the random motion of bubbles traveling along your body to the surface helps center and clear your mind. And, you can tailor the intensity of each bathing experience, from a soothing caress to a vigorous massage.

Create rejuvenating bathing experiences at home with bath salts and oils from our online boutique at KohlerWatersSpa.com.

KOHLER.com/BubbleMassage

What will I experience?

Bubbles completely surround and massage the body at your preferred level of intensity, helping to center the mind and stimulate the release of muscle tension. Depending on the choice of airflow setting, the experience is anything from a gentle bubble action to an energizing massage.

How does it work?

The proprietary 360-degree airjet system fills the bath with thousands of bubbles. Staggered jets push bubbles into the center of the bath, creating a balanced, all-encompassing body massage. A variable speed blower provides a range of airflow settings to increase or decrease the intensity of the massage for a complete, comfortable and customizable experience.

What else should I know?

The Zones of Control™ feature, available on select baths, allows bathers to choose a complete body massage or one that focuses on the back, legs or feet. BubbleMassage technology delivers a constant level of intensity or, with the surge feature, creates a repeating sequence of increasing and decreasing intensity. Automatic or manual purge cycles ensure an exceptionally hygienic and easy-to-clean system. And, with BubbleMassage baths, bath oils and salts may be used.

Whirlpools

Whirlpools are engineered to maximize the unique benefits of targeted hydro-massage and, similar to a deep tissue massage, can potentially increase blood flow. Delivering powerful directed massage, our whirlpools offer real solutions for unwinding and revitalization. KOHLER® whirlpool jets rotate for precise positioning and adjust for intensity, customizing each bathing experience.

KOHLER.com/Whirlpools

What will I experience?

Enabling the individual to personalize the experience, KOHLER® whirlpool jets adjust for directional positioning and massage intensity. This allows bathers to massage individual stress points along the body, helping to release tension and soothe muscle soreness.

How does it work?

Optimally positioned whirlpool jets provide targeted hydrotherapy with an ideal mix of air and water. Each jet can be rotated for targeted, effective hydro-massage, while the outer ring gives the user complete control over water flow volume. Our variable-speed control, available on select models, allows bathers to choose between intensity settings for a customized bathing experience.

What else should I know?

Enhanced options are available on select models. An in-line heater maintains the water temperature and helps ease tense muscles. The Bodyssage backjet system targets pressure points along the spine and across the shoulders, encouraging deep breathing. Two adjustable neckjets cradle the neck and pulse alternately from left to right, helping to decrease tension. The optional floating remote control offers greater convenience.

Baths

Baths. Sometimes, a simple approach is the best. Uncomplicated and well-conceived. We engineer our baths so that nothing comes between you, your bathing preferences and all-encompassing comfort. Our baths are ergonomically crafted to gently support the natural curves and angles of the body. For the bathing purist in each of us, KOHLER® baths help keep life simple.

Essential Details

Here's a closer look at the technology systems that drive KOHLER® hydrotherapies. Each of these technologies has been developed by our own design and engineering teams to bring you the best in hydrotherapy options and experiences.

Whirlpool Jets

KOHLER whirlpool jets are individually adjustable to target specific areas of your body. Delivering the optimal mix of air and water, they fully adjust for water flow intensity and directional control.

Backjets

On select models, the Bodyssage backjet system, featuring ten KOHLER backjets, loosens tension throughout the back and shoulders and encourages deep breathing. Our backjets fire two by two, targeting the lower back first and moving all the way to the shoulders. In this way, our backjets simulate the natural progression of a hands-on massage.

Neckjets

Available on select models, a factory-installed pillow with two integral neckjets pulses alternately from left to right for a stimulating, stress-relieving massage at the back of the neck. Customize your experience by adjusting the pulse and water flow to your level of comfort.

Effervescence Technology

A series of ports, optimally located, distributes champagne-like bubbles that are comprised of the perfect combination of air and water, allowing them to cling to and caress your skin. The result is a sublime, all-encompassing experience.

Chromatherapy

Chromatherapy is a color experience designed to calm, energize or balance your mood and the energy that flows through your body. Some research has shown that color may have psychological and physiological effects. Warm colors like oranges and reds are believed to stimulate and refresh while cool blues and greens are thought to calm the mind and body. Each color has its own personality with corresponding traits.

BubbleMassage™ Airjet Design

This proprietary design ensures comfortable and consistent bubbling action, making KOHLER® BubbleMassage the ultimate air bath experience. The 360-degree staggered airjet design, along with targeted foot and lumbar airjets, delivers a full-body massage.

Enhance Your Comfort

We offer various accessories to make your bathing experience even more relaxing and tailored to your preferences. A pillow and footstop provide added comfort and are available in the most popular KOHLER colors. Bath and whirlpool trim options, drains and under-mount installation accessories allow you even more flexibility for customization. To learn more about our bathing accessories, visit KOHLER.com/Bathing.

Whirlpool/Bath Pillows

The KOHLER® whirlpool/bath pillow (K-1491) provides a comfortable addition to any KOHLER bath. Suction cups hold the pillow firmly in place, yet allow it to be removed easily for cleaning. It is available in White, Almond, Biscuit and Black Black™ to coordinate with any KOHLER color.

Whirlpool/Bath Footstops

An optional whirlpool/bath footstop (K-1601) can be placed at the base of the feet or under the thighs to comfortably adjust your bathing position in larger baths. Available in White, Almond, Biscuit and Black Black, it coordinates with any KOHLER whirlpool or bath.

Clearflo Slotted Overflows

Kohler offers you a wide array of options, including the Clearflo slotted overflow drain that affords up to an additional 1½ inches of water depth. For a complete selection of drain choices, see pages 120-121.

Electronic Controls

All hydrotherapy features may be independently controlled with ease. Some models include a lighted keypad and floating remote control to add further customization and convenience.

Toe-Tap Drains

Adding an extra touch of convenience to your bathing experience, Clearflo toe-tap drains open and close with a light tap, so no bending or reaching is needed. Also, the absence of internal links reduces the potential for clogging. For a complete selection of drain choices, see pages 120-121.

Clearflo Closing Overflow

Allowing bathers to fill the bath as high as they desire, the Clearflo closing overflow drain can be closed for an extra-deep soak. For a complete selection of drain choices, see pages 120-121.

For bathers who prefer a deeply relaxing, gentle experience, we've designed two hydrotherapies unique to KOHLER®. VibrAcoustic™ hydrotherapy combines the ultimate in bathing comfort with sound-wave vibration to achieve relaxation that literally resonates deep within the entire body. Effervescence hydrotherapy delivers an utterly divine combination of water and air that envelops the body with sensory delight. To help you determine which is the right hydrotherapy for you, we've outlined the features and benefits of each on pages 32-35.

KOHLER® BubbleMassage baths are available in a wide array of colors. See page 126-137 for details.

KOHLER® whirlpools deliver powerful directed massage, providing real solutions for unwinding and revitalization, and encouraging a sense of increased well-being. To help you determine if a whirlpool is the right hydrotherapy for you, review the features and benefits listed on pages 38-39 and watch our hydrotherapy videos at KOHLER.com/Bathing.

KOHLER.com/Bathing

We encourage you to use the following charts and indexes to compare the full bathing product line and determine which product meets your needs.

It may be helpful to select your hydrotherapy first from pages 30-45, and then choose the style and size of your bath from the corresponding product portfolio pages. At that point, our charts will provide additional details as you make your final selection.

If you still have questions, we invite you to talk with your nearest showroom representative and visit us online for more information.

Glossary of Terms

Acrylic

A strong, flex-resistant material, acrylic has a smooth finish that resists chipping and cracking, and is easy to clean.

ADA ADA-Compliant

ADA-compliant products will comply with the Americans with Disabilities Act of 2004 when installed per the requirements of the accessibility guidelines of Section 607 (Bathtubs).

Alcove

An alcove is a recessed nook or area within a room. Fixtures designed for corner or three-wall alcove installations feature unfinished exteriors and tile flanges on two to four sides. Many of these fixtures include an integral apron to complete the design.

Backjet

The Bodyssage backjet system features ten KOHLER® backjets that loosen tension throughout the back and shoulders and encourage deep breathing. These backjets fire two by two, targeting the lower back first and moving up to the shoulders and neck in sequence.

Bath

KOHLER baths are ergonomically crafted to gently support the natural curves and angles of your body. Just calm, quiet water and you.

Bath Pillow

Included with some models and optional on others, adjustable KOHLER bath pillows are offered in various styles to provide added comfort where needed.

BubbleMassage™

BubbleMassage technology pushes air through airjets positioned along the perimeter of the bath, creating thousands of bubbles for a range of tactile and visual sensations.

Chromatherapy

Chromatherapy uses color to create a relaxing, soothing environment and help calm the body and mind. An eight-color sequence lasts about one minute, then repeats, or one color can be chosen.

Drop-In

Fixtures designed for drop-in installation have a self-rimming edge that rests on the material – such as tile or stone – that surrounds your whirlpool or bath.

Effervescence

Effervescence technology is designed to move water and air gently through unique ports to create champagne-like bubbles that cling to your skin and pamper your body.

Exposed Deck

Installation that creates a vessel-like appearance for the bath, with the rim of the bath raised and the deck under the rim exposed.

Freestanding

This installation option is ideal when the bath is the focal point of the room. Accessible from all sides, the freestanding bath highlights the beauty of the design.

Floating Remote Control

The floating remote control, included or optional on several models, offers added convenience and controls all the same features as the lighted keypad.

Footstop

To be positioned at the base of the feet or under the thighs to ensure the bather's comfort in larger baths, the optional footstop coordinates with any KOHLER whirlpool or bath.

Integral Apron

Designed to accommodate alcove installations, baths and whirlpools with integral aprons complete the bathroom and provide stylish detail.

KOHLER® Enameled Cast Iron

KOHLER Enameled Cast Iron is made in part with recycled material, comes in an array of colors and has a Lifetime Limited Warranty.*

Neckjet

Available on select models, a factory-installed neckjet pillow with two integral neckjets pulses alternately from left to right for a stimulating, stress-relieving massage at the back of the neck.

Spa Whirlpool Package

Combining targeted hydro-massage, caressing champagne-like bubbles and chromatherapy, the spa package offers a customized, pampering experience with whirlpool jets and Effervescence.

VibrAcoustic™

VibrAcoustic hydrotherapy combines music, sound-wave vibration and chromatherapy in the bath, delivering relaxation that literally resonates deep within the body.

Zones of Control™

Available on select BubbleMassage™ models, the Zones of Control feature allows bathers to focus bubble action on three different areas for a concentrated massage at the back, midsection or feet.

Lithocast®

A premium solid-surface material that allows for new geometries, textures and designs for the modern bath. Lithocast offers the beauty of real stone yet is warm and comfortable against the body.

Relax Whirlpool Package

With Effervescence and chromatherapy, the relax package caresses your skin and surrounds you with a soothing spectrum of color, calming the body and mind.

Tile Flange

Several baths and whirlpools have an integral flange or flat rim along the edge of the bath that attaches directly to the studs, helping to prevent water from seeping behind the bath, tiles or surround.

Whirlpool

KOHLER whirlpools deliver powerful directed massage with jets that are fully adjustable in direction and massage intensity.

Massage Whirlpool Package

With whirlpool jets, backjets and neckjets, the massage package delivers a true hydro-massage to alleviate tension and rejuvenate tired, sore muscles.

Spa/Massage Whirlpool Package

The spa/massage package allows you to personalize your own multisensory hydrotherapy experience, whether calming or invigorating, with whirlpool jets, backjets, neckjets, Effervescence and chromatherapy.

Under-Mount

Creating a clean, contemporary look, under-mount installation is perfect for designing a quiet, spa-like bathroom space. The deck of the bath is mounted beneath your choice of deck material, such as tile, solid surface or natural stone.

Whirlpool Jet

Individually and fully adjustable to target specific areas of the body, KOHLER whirlpool jets deliver powerful hydro-massage.

Thank you.

If you'd like to learn more about Kohler and our complete product offering, we invite you to take a look at our literature, visit us online or stop by a KOHLER® Showroom.

Literature

Concise and easy to use, our full-line category books inspire you to create beautiful spaces and guide you through choosing kitchen and bath products that are right for you and your home.

In addition, *bold* features ideas we're passionate about, the latest introductions to the KOHLER kitchen and bath lines, as well as a selection of our timeless, classic offerings.

View the full magazine at KOHLER.com/LiteratureStore. There you can download additional category books and brochures. KOHLER literature also can be ordered by calling 800-4-KOHLER.
