SANITARYWARE

# Mood

Noken presents MOOD, a new concept in bathrooms comprising two large families of products: a sanitary ware line and a brassware line. The sanitary ware line, designed by Rogers Stirk Harbour + Partners and Luis Vidal + Architects combines the world of ceramics with the integration of accessories. Our broad range of options makes this collection modular and expandable, as well as versatile and functional. An exciting combination of colours brings a touch of freshness and modernity.

\*\* Available with Chrome or White flush buttons. Wall hung pan and SMART LINE cistern included. For further information please consult your nearest Retail outlet or our website.

# Neox

Noken developed a new concept of interior design by integrating sanitaryware into the actual bathroom structure with an increased aesthetic value. The straight lines and square volumes contribute a refreshing character to bathroom spaces. Neox stands for a trendy series emphasizing a modular and integrated approach, which makes it the ideal choice for wellness areas, private spas, gyms, etc. . .

# Essence C

Haute couture for the bathroom. Several years have passed since the first Essence bathroom unleashed a revolution by transforming bathroom spaces into living spaces, imbued with elegance and creating a warm and cozy atmosphere. Essence-C follows the same values with a modern twist.

# Forma

Timeless and contemporary. The rounded corners and curvature shape that characterize the Forma collection creates a feeling of lightness in the bathroom. The more modern and complex our world becomes, the more we long for an escape of the daily stress, to refresh our mind, vision and emotions. The design of the Forma series allows an expression of minimalism but with a personal touch. The sinuous lines of the series, its attractive surface and subtle luxury makes it the perfect choice for those who seek prestige with contemporary forms for a cozy and functional bathroom environment. The collections features eye-catching ceramic elements with rounded edges providing softness to bathroom aesthetics.

# Arquitect

The smooth continuous lines, functionality and adaptability to fit any bathroom space, make the Arquitect range suitable for current designer tastes. The variety of products within the range permit both compact and large luxurious bathroom designs. The series contains a CC toilet suite, BTW pan and also wall hung pan and bidet, next to a variety of wall mounted and cloakroom basins. The Arquitect collection shows fluidness and dynamism of lines, that makes it exceptional with a distinctive look. The perfectly balanced and harmonious well-defined curvature silhouette make the Arquitect collection both stunning and highly functional.

## ▼ Giro

The richness of the Giro collection invites us to imagine many designer possibilities, creating unique architectural spaces extracted from the imagination of great designers. Sculpture, architectural or merely functional object, Giro has been designed to meet the maximum demands with a pure and minimalist design. The fluid shapes and poetic lines in both the wall hung pan and bidet transform your bathroom into an modern designer space.

Wall hung pan

Wall hung bidet

## ▼ Lounge

The Lounge range is perceived as a purely geometrical evolution. It does not want to be static as it reflects the dynamic synthesis of the natural lines, neat and rational. Designs that evoke unique architectural spaces born at Simone Micheli's studio. Result of a thorough analysis, the Lounge sanitaryware range reflects its symbols and poetic expressions.

# Hotels

Although with a clear message of resignation, the outcome is generosity. Large basin surfaces occupying minimal spaces and incorporated towel rails located underneath the basin, attribute maximum comfort and functionality to the range. The wall mounted pan and bidet retain the sinuous lines that characterize the Hotels series.

# Bela

The Bela collection is characterized by harmonious and smooth shapes, offering smart space solutions with single and double sink compositions. The basins can be combined with practical counter-tops, both for the smaller and larger sized basin, providing additional storage for toiletries or can be mounted individually on the wall. The CC suite and bidet are designed fully back to wall for easy cleaning and increased hygiene.

# Imagine

The Imagine series is an approach to stylish bathrooms with Belle Epoque design, ideal for those attracted by the XIX century style. A firm tribute to the past but with a modern twist, creating a new archetype of total quality combining purity of forms with sensorial luxury. Imagine brings a balance between fashion and luxury, rationality and emotion.

# Imagine N

A necessity might also be a luxury. With its bathroom fittings and consoles, the Imagine N series personifies luxury and exclusivity. The merging of function and beauty with unprecedented precision and knowledge of high class elements symbolises the luxury and exclusivity for special interiors. It is complemented with personal details, not just in the design but also in its decorations.

BRASSWARE

# ▼ Mood

The MOOD brassware line, designed by Luis Vidal + Architects, is born as a solution to the responsible use of water. In the electronic range, function, flow and temperature can be personalised to suit each use and user. The mechanical range offers the same elegant, futuristic design, adapted to more conventional preferences.

# Lounge

"My idea of aesthetics is not based on minimalism. On the contrary, I base myself on maximalist aesthetics with the soul and subtleness of Italian finesse. The new luxury is in the emotion of a redefined object; sobriety which causes pleasant stimulus without falling into lavish Barroquism and overpowering decoration. Luxury is in the accuracy of the brassware, in its mechanisms, in the synthesised design and in the sensuality of the textures. Human beings become the centre of the space, the only character of the habitat, whose frame of mind expresses the harmonious continuity which peacefully interacts with the users", Simone Micheli.

# NK Logic

The NK Logic series echoes well-designed straight lines and appealing cubical forms to cater to modern design language. A meticulously designed integrated aerator with “clean” function allows self cleaning and lime stone protection. The basin mixer comes also in a high spout version for combination with vessel basins. The range shows how square forms usher into a great and flexible design concept. The large choice of items, offering perfect modularity, is the ideal solution for all your designer needs. The NK Logic line of products is also designed to enjoy relaxation, recreation and a sense of well-being in the shower area.

# NK Concept

Simple and stylised design defines this range of tap fittings, characterised by the formal purity of its silhouettes. In addition, NK Concept tap fittings are a clear example of an ecological product, as their cold opening system reduces the energy consumption associated with heaters and steam boilers. The series has washbasin models of different heights, thereby providing an ergonomic solution which adjusts itself to the needs of each user.
